Ancient Cycle of Conflict Coming to an End – It’s a Game Changer

Dr. Michael Salla, George Kavassalis

Ancient Cycle of Conflict Coming to an End – It's a Game Changer Parts 1 & 2

https://rumble.com/v7dwm8k 73m 8-11-2026

After a nine-month absence and a serious health crisis, George Kavassalis returns with what he describes as one of the most important galactic developments of our time.

In this wide-ranging conversation with Dr. Michael Salla, George shares his account of a historic peace gathering at Epsilon Eridani. He says representatives from across the galaxy came together to end ancient conflicts involving Orion, Alpha Draconis, and other powerful star civilizations.

But what would a galactic peace treaty mean for life here on Earth?

George explains how the fractal nature of the universe may connect events in distant star systems with political, spiritual, and disclosure-related changes unfolding on our planet. He also discusses the three SSP admirals, alleged parallel meetings on Jupiter and Earth, Green Mountain, secret operations against hidden control systems, and why he believes the disclosure process is entering a decisive new phase.

At the heart of the conversation is a much more personal message. Real change begins within. George encourages people to step away from fear, reconnect with the stillness inside themselves, and remember who they truly are.

This is a powerful discussion about galactic diplomacy, secret space programs, human consciousness, spiritual sovereignty, and the possibility that an ancient cycle of conflict may finally be coming to an end.

PART ONE [Publicly available]

DR. SALLA: After a nine month hiatus, George Kavassalis is back with some important new information about what is happening in our galaxy and also the implications from Earth. He's going to give us an update about some of the details of a very important peace treaty that has been signed and how the fractal nature of the universe means that we are looking at some incredible changes on the Earth and he's also going to be giving us an update on some of the major exopolitical developments that are happening today on the Earth. Well welcome back George.

GEORGE: Hey Michael, it's great to be back. It's been a while.

DR. SALLA: It has. Now you've had a long hiatus, I mean nine months is a long time. It's not like nine months, I mean at least on our planet is birth after a nine month period. And so is this kind of like what can we expect with this new rebirth of George?

GEORGE: Yes, yes it was a tough journey. I lost a tooth due to a bone infection and then it got really bad and the whole side of my face swelled and I nearly left the plane, the planet. And now I'm back. It's been, you could say, a re-evaluation and a restructuring phase.

So deep personal alchemy and now it's time for the work to begin once again with the new version of me. That is emerging. Yes, I feel very, very peaceful, very joyful and I just completed 60 orbits around the Sun on this magnificent planet. And I'm feeling younger than ever before. It's quite an amazing feeling. It's good to be back.

DR. SALLA: Yes, it is amazing when you go through these events, these kind of health crises that you do change. I mean I certainly have had some really major changes since I went through my health crisis at the beginning of 2026 and I'm still not completely through it. But I'm definitely much better and I'm in a better place living here in Ormond Beach right next to Daytona in Florida. Doing regular walks on the beach really has been great for my health but definitely a little bit more to go through. Some surgery, that still has to be done but after that I should be in the clear.

GEORGE: Yes, awesome. And then you're just going to bounce back better than ever before. Yes, the more we turn inside out, the more youthful we become. It is that timeless nature of us really flowing through all of the cells of our bodies and beyond.

DR. SALLA: It's so good. Now several weeks ago you contacted me and shared a little bit about an update that you did on your website about this major peace treaty on Epsilon Eridani. So why don't you walk us through and explain to my audience exactly what happened and its significance?

GEORGE: Yes, so it was on the night of our 10th of July which would have been the first day, the 9th for you guys over there. And it was really, really intense experience, very profound. I didn't get any warning as to the content. I just knew I had to get to bed. When an event like this occurs, I get a tiredness and it's a signal that something is going to happen.

So George, you need to go to bed, you need to go now because something major is about to occur. And it started happening about 8pm and then I lasted, I was falling in and out of sleeping my chair watching something and I got to bed about 9pm and I didn't even have the energy to brush my teeth. I only had the energy to just change my clothes and that was it.

And then it was around, in the email that I put out, I said around 930, it was around 918pm, I got picked up and I ended up, it was interesting because I ended up being up but I was awake for that part as I was getting transported from my bed. I became awake during that process. I saw like an energy just removed the covers and then I just floated up.

And what happened is the rate of the spin of the atoms get shifted which then changes the molecular vibration and now you're phasing out of the physical matter of this world. And this is how it all works, it all happens very quickly. And then I was just lifted up and I remember going, I was floating in the room and I remember going through the ceiling all very quickly because it's just like a tunnel transport beam of light that comes down. Sometimes, depends who's doing it, sometimes a bit of a vortex and sometimes just a straight stream of light like a tube around you.
And then you just go straight up and go through the ceiling, through all the timber struts, through the iron roof and then straight into the, through the bottom of the craft.
And I ended up being picked up by Solar Warden which have a craft station here permanently because there's quite a few SSP people in this town. Several are aware but most are not even aware they're a part of it. And this is the same setup all around the world. I just want you to know when we talk SSP, we're not talking conventional SSP operatives as you imagine it. This includes all the Envoy star seeds. There's an incredible amount of protection and surveillance going on for everybody who's here as part of the greater management crew to do this incredible work that we've all chosen, volunteered courageously to do.
So it's important for people to know how much protection we all actually do have. We all would have got taken out a long time ago if it wasn't for these, this organization, this part of the secret space program, the department that I'm involved with. I'll call it the altruistic department of the SSP. It's probably the best way to labeling system to give it. It is the closest that we can get to it of the nature of it.
And it is a vast multi-dimensional construct, the actual secret space program. You call it a department, you can call it a faction, branch, whatever you want to call it. It is a vast multi-dimensional operation within itself.
So lots, very, very, very detailed, very involved in many different areas of life. And we are all operating on a creational level. That means conscious relationship with the creational intelligences. And that is as pure as it gets. You can't get purer than that because you

are completely one with all the prime creative intelligences. Be they what we call the realm of nature, whether we call it the planetary, and then you go to the solar and galactic cosmic and then onto universal, multi-universal, and then grand light, universe, intelligence.
So we are one with that. We are in the unified field. We are one with the unified field. And this is where we launch our intentions of operations or doing, doings from. This is what differentiates those of the natural way of love, natural way of life, natural way of light to the others, the imperial systems. Because you have these gods that sit at the top of each of these empires.
And then they have their main empire, then they have subsidiary empires. So it's really important to remember the actual structure of things.
DR. SALLA: Yes, that would be good to just kind of help explain to people this hierarchy because I know the Epsilon Eridani piece agreement that you told me about that it involved this element involved with the Draco Reptilians agreeing to the terms that were presented. Now the hierarchy, the cosmic hierarchy, I mean, we, many people who talk about the extraterrestrial presence, they talk about Draco Reptilians having a very important role in the kind of negative hierarchy. Interestingly, I just kind of like came across some passages in JJ Hurtak book, The *Keys of Enoch* from 1973. And he was talking about the Draco Reptilians back then in his book.
So that's kind of like to me the earliest reference to this. But you also mentioned the gods. So hell, in terms of this negative hierarchy that we are facing and the peace treaty or the peace discussions had to deal with, you got the Draco. Well some say you got the praying mantis and then you got the Dracos above them. And above them you have these dark interdimensional beings whatever you want to call them, black magicians and above them what these gods?
GEORGE: Yes, the gods are at the top. These are in some references, they're called archons. In other references they are called, well the demiosh is the main one. It is a pure, distorted cosmic ego consciousness construct. This is the intelligence that is behind all the forces of limitation, that's what we call them. And all

the structures of separation away from unity, it is the main prime intelligence that is running that. And it's an office. It is a, let's call it a throne. And it is the one that is the god of the gods. Yes, the one would be the one that is at the top. It's because of the nature of the universe.
So if you have the prime creative intelligence that is this universal construct, then because we came into this grand light universe from beyond, from the omniverse. Yes. And the multiverse is inside the grand light universe because there are multiple versions of the same verse meaning they're all light construct based universes and they're all in the grand cosmic arena, this side of the great void. Yes.
So, and beyond the great void are the realms of harmony, what we will call the Christed realms. Yes. Where it's all unity, full unity. So the multi-dimensional space within the grand cosmic arena and the multiverse. Now, we are in the original, this universal plane. Think of it as a book. Yes. And each page of the book is a universal construct in the multiverse. Imagine the multiverse being a book. And it's all the same story, even though there's different parts of the story, we are in the original intention story here in this universal plane or slither or whatever page, whatever you want to view it in that sense.
So and all the other ones are branched off, creational, like universal timelines. But where in the main one here, we're in the organic one, this is the one that binds everything together. And that's why the nested fractal pathway out of the cosmic domain. In other words, the creation of this galactic realm being a fractal of the cosmos. Every star system in this galaxy is a galactic intelligence compressing itself and then incarnating into the galactic, what we call the galactic worm, which is the universal mother expressing itself as a galactic realm, because it's the galactic worm. Hence, we call it the milky way. It's the nurturing of the mother's milk.
And it's not just that it's a milky substance in the sky that appears as that. It's much deeper than that. And this is what I'm sharing with you is what's known throughout the universe. Or this isn't just my perspective. Yes, it's not a personal thing. This is the construct of create. This is on a creational level. This is how it is. All right. It's not

just my opinion, my viewpoint, my perspective. Yes, it's what is. It's the construct.
So and it's the same for all of us, regardless of your individualized viewpoint. It's what you're inside of. You want to accept it or not? Just is. And it took me a while to come to terms with that. And we'll talk more about that sort of stuff later towards the end. Because I've got something very, very important to share in regards to that.
So the every star system in our galaxy is actually a galactic realm, incarnated, compressed billions of stars, quadrillions of life forms, everything that that galactic realm has been and lived all the knowledge and wisdom gained from all the life experiences of all the different life forms in that galaxy. All compressed and now expressing itself as a star system within our galaxy. This is where the density comes from. Yes, it's an incredible amount of compression. The genius behind this is off the charts. It's obviously universal intelligence that has come up with this process. And that's why then you look at the galactic realm and then the next nested full fractal is our solar system, our Sun.
So all of the stars in our galaxy unified as one solar expression. That's what our Sun is. That's the construct of our Sun. So therefore our Sun, the soul of being and intelligence, the spirit and the soul of the Sun is all of the visible light in the cosmos in a concentrated unified expression. And then we have the solar system, the body of the Sun, which is the entire solar system.
And then our planet is a fractal of the solar system. And once again, it is the universal mother, the galactic mother, incarnating as this beautiful planet. It is her responsibility to facilitate this process. And that's why in my ancient culture, we know her as Kristi Sophia because inside the hearts, our lessons, the core of this planet is a female version of that Sun that you see out there that is expressing itself as a masculine in this epoch. And we are a fractal of the planet. So this planet has her outer. And in my ancient culture, we call it a year, which in the Western culture, you use the word Gaia. Okay. But it's a mispronunciation of the logos pattern. A year is the actual logos. If you really want to connect with her, I highly recommend

using that or Patchema. Find a logos pattern that is really most closely aligned to the true essence of who and what she is.
So just one of all cultures have that, but you've got to go back way back in your culture to get to the original logos pattern in reference to the intelligence, the spirit and the soul of this planet. And then she has the outer and then we have that we have our outer construct and then we have that inner Sun deep down inside of us.
And this is the fractal structure of things and that inner Sun that in a light is the light of our soul. Yes, that is our soul star essence and even Christ said in the hidden gospel of John you not know that your body is the temple of the son of man. You know, it is our bodies are the temple of Solomon. This is the true temple of Solomon, right? Not the bricks and mortar in the Middle East. That's for the plebs who totally don't get it. If you want to know the true essence and what King Solomon was actually teaching, the real teachings, not the stories handed down, distorted, twisted, manipulated stories of who and what he was and what he did down through the ages. Because you know, history has always been written by the winners and we know that the identities of the people that did good deeds have always been hijacked, twisted, distorted and manipulated.
So and that's the game that Empire plays time and time again. So who and what we are as a species and the fractal, the nested fractal structure is the reason why this peace treaty was able to come about because of all the brave, mostly woman that ratios about 80, 20 to masculine, feminine energy who adopted the pain and the suffering of the Eridani system to come and alchemize it.
So not only people alchemizing their personal karmic imbalances back into unity, we were also adopted and processing many different karmic imbalances from different star nations within the galactic realm. So this is huge what's going on here.
And who we are as a species, we are way, way more substantial and significant as a species than anyone or anyone of the gods would allow you to have access to the memory of or even in written material.
So it's their jealousy and their rage. Not all gods is really, we're working with great gods. Athena is one of the best. You know, she

totally gets it and Prometheus is another one. He's fantastic. That's another fantastic God that is really supporting and helping us in a really substantial way.
DR. SALLA: What about Yahweh and…
GEORGE: No, he's one of the deeply enraged jealous gods that despise who and what we are.
DR. SALLA: In the hierarchy of gods, I mean, where does Yahweh stand? You mentioned earlier on the Denny urge. You had the prime creator, then you had the demiurge. So where does Yahweh stand in relationship to that? Because I think in the Old Testament, a lot of people would say, well, Yahweh is the creator or the Denny urge.
GEORGE: Yes, well the thing about these gods, once they've given access to this realm, then they control the narrative.
So they get their minions to then dictate to the masses what is going to be shared as to what reality is according to them.
And so these gods are making the most outrageous claims, especially claiming that it is the creator of all that is in all that exists in existence, which is nonsense because even when you connect back to the actual creative intelligence of this universe, it sees you as an equal and is so happy for you to go beyond its construct as a universe and go back out to the universe and be one with infinite nature of life again, where there is no creator of life. Life has never been created. It's infinite. It's eternal. It always has been and always will be. There's no beginning and there's no end to life. Yes.
And then the way that it is, the way that it is created is by an infinite being, internal being, just expressing itself and that expression becomes a manifested form. If it likes it, it will continue with that. And that's what we call a universe.
And then other eternal beings go, wow, that's pretty cool. Can I join in on that? Sure. Just let me just refine it a bit and then you can project an aspect of yourself into my universal creation. Just like one giant fun park, right? And life is one big adventure. And when you come back to the unified field within this universal construct, that is your doorway back out to the infinite nature beyond this universe.
So the Grand Light universe I'm talking about. So the energy that you experience back in the internal and the infinite is a sense of

adventure is so, that's a label we give it. It is so pronounced. The joy, curiosity and love. They are four of the most prominent, what we would equate to feelings and emotions in our world here in this construct that we can relate to in the infinite and the eternal.
DR. SALLA: Now going back to this kind of like negative hierarchy. Yes, sorry. Like you mentioned the Epsilon Eridani meeting and the Draco Reptilians had agreed or made peace with the, well, who exactly did they make peace with?
GEORGE: Yes, I was given the background to answering your question before my apologies. It's, this is such big concepts that we're sharing. I get lost in it sometimes. And so if you have the prime creator that is this universe, then by the very nature of this universe being a light construct. So you have it's a, it's a universe of contrasting expressions. And that's what we call yin and yang. We call the waveform. If you want to get mechanistic and technical about it, we have a waveform that represents the positive, the negative, the yin and the yang.
So by the nature of the universe, if you have the prime creative intelligence that is this universe, then you must have a being that's not of this universe that's entered the universe and then claim to be the creator of all that is and all that exists. So that's what this distorted ego construct cosmic on a cosmic level. That's what this energy is.
And then it has its minion gods around it. Yes, because this is just a pure ego is no, but you can't even put form to it. It's just this ego essence, this identity essence, and it's purely distorted, deep in separation from the rest of the natural construct of life. And it lives within its own self-deluded reality. And then it's got its minions and Yahweh is one of those minions.
And whatever you it's like it has your think of these other gods as interface modules for that ego construct.
So you've got Yahweh, you've got Allah, you've got God, what we call God, because again, I just want to reiterate and bring clarity, absolute clarity. We have the natural prime creative soul, spirit, consciousness and intelligence that is this universe.

And then we have the gods of religions. And they are completely two different things. The gods that go around soliciting worship and some of them even demand blood sacrifice, they are deep in separation. And unfortunately, what has become of this world is the minions of these gods of this god entity. That's what I call it the main one.
It's minions which are the interface modules, which are the head constructs of each cultural religious narrative on this planet. They are the ones that answer to it and all the energy of worship goes to this entity and powers that one. But then each of these sub entities or interface module, god interface modules, personality interface modules, which are living constructs, living entities, they have their overlord and they go back to this ego construct, this distorted ego, what I call the main god entity on a cosmic level.
And I've bad witnessed to this in 2003. I'm not speaking from someone giving me this information, having read it somewhere or having a fantasy or an idea about it. In 2003, I had direct experience of this and I saw all the energy pouring off our planet and going to all these interface god entities and then from there, streaming towards this one distorted god entity ego construct. I was able to directly bear witness to it myself.
DR. SALLA: So if we have billions of people on this planet that are sending their energy to these gods that you named and their energy is just being siphoned off by these beings and then you've got a small percentage of humanity that are conscious of their true existence as fractals of the greater universal being. So how do things change?
GEORGE: And we're not just fractals of it. It's really important to remember that we come from beyond the universe and our entire existence inside the grand light universe is a co-creational experience. We are equal with. Okay. We are not a cell of a body though. That's another narrative that gets thrown around that we are an aspect or a little part of this much larger god entity. That's not how it is. We are in conscious co-creation, our entire existence in this universe is equal, participatory conscious co-creational experience. We're all infinite.

DR. SALLA: Right. But we choose to kind of limit ourselves in consciousness to either be a minion of one of these gods that side of the energy or we can be on a journey of self-discovery and awakening to our true potential as beings that, well, I guess as you said, come out of the universal structure, but also we embody a fractal of the greater universe of.

GEORGE: Yes, yes, 100%. Yes. Because that is we're inside this universe. So we are entire existence is co-creational. So we are one with the creator and at the same time we have chosen to journey into the specific realms that have been set up. It's like even when you come into the galactic realm, the realm itself is not veiled, only certain realities within the galactic space of veiled. You've got to remember the multi-dimensional nature of things.

So even this planet, we are kept inside a very small slither of reality with our conscious awareness. The moment you come out, you start to experience viscerally for yourself. You become sovereign, not sovereign. You become truly sovereign, free, and you are back home to the actual natural way of love, life and light and the unified field and the true nature of things.

And from there, you begin to see all of the limited realities, frequencies, consciousness constructs that are taking place. And we call it the behind the veil, the veil that everybody's experiencing is a consciousness membrane. It is all in here. And once you get past that, once you get past your identity constructs that you identify yourself through either one imperial narrative or another, you then be on it all. And now the challenges to walk between the worlds from the unified back into separation into the imperial constructs. And that's what I'm doing and that's what many others are doing.

DR. SALLA: Okay. All right. Well, it's, yes, these are very expansive concepts. And I guess a lot of my viewers might ask the question, well, how does that really connect to me in the now understanding the world as it is that it's a pretty messed up place with lots of many areas of deception, manipulation and poverty and the human, humans being kind of like manipulated so easily.

And yet here you are as an individual, like increasing your knowledge, learning about the different life forms and what is truly

happening in our planet. But we also kind of spirit or we are like souls that physically embodied and that physical soul mind connection is somehow a fractal of the greater reality.
So how does all of that kind of like practically for people that say, okay, George, I really love everything you're saying, I resonate with it. How can I manifest that in my life in a way that's going to make a difference?
GEORGE: It's so simple. And that's why people find it so difficult because we're addicted through the mind and the complexity that empires programmed us with. So you've got to get out of the mind matrix, the consciousness matrix, because what we're actually being assimilated into is a multi-dimensional consciousness matrix. It's not just this one plane here on this planet and the government and the mind matrix.
No, this is really complex because we're talking about gods insanely jealous of us who are imposing their systems of control and their systems of harvest and really advanced technologies that have been implanted into our physiology, especially at the last great reset 12,500 years ago, when the moon was placed around this planet, the source of the great flood, which is all in the geological records, if you care to look properly.
And it's also in some of the narratives, in some of the written material, even in the Sumerian tablets, it is completely talked about of the great reset of the human genome and the human construct. And Ninhursaak has a conversation with Enlil saying, we have to take out all the non-modified humans, all the ones that we didn't get to, all the ones who survived and didn't get modified. In other words, didn't get implanted with the chakras Kundalini and pineal gland construct that they inserted and infused into our physiology.
So we have to, because that's the pineal gland's source of the mind matrix, the consciousness matrix, the multidimensional consciousness matrix. And I know that is challenging for so many people to hear. I get it. I was there. I was in that space. I experienced that version of enlightenment. And in 2003, I had an experience which showed me vastly different and brought me back home to the unified field.

And what I'm speaking of is what is known throughout the universe of all life in the natural way of love, life and life who are in that unified field, which is the overwhelming majority of life in the universe. It's not a mystery to any of us who are back home in it. It's just, if you stop at these technologies and you don't go deeper into the source of your construct, you don't have the point of reference. You don't know. You only see and live the narratives that have been handed to you by empire and also adopt their spiritual pathways of enlightenment, which pulls you into their multidimensional constructs, which is the hologram of the gods. You see, so it hurts. And I know it's challenging. I went through it myself. And I just really ask everybody, because people are disinformation agent is full of shit is trying to steer people away from true enlightenment. I'm actually sharing with you the actual original design of our species, right? What we were originally intended for and that unified center that we have inside of ourselves right here, go deep, go beneath the shark system and the Kundalini pineal gland system. You know, that's why the Freemasons do it and they worship the great architect because it's all numbers and geometry and sacred geometry. Natural life is not built from numbers and geometry. Natural life is streams of intention that are woven like a beautiful tapestry in life. There is no rigidity to it.

So when you journey into separation, you journey into the synthetic realms and their construct is constructed from numbers and geometry. So until you take that journey further inward, beyond, beneath those other constructs, you don't know. You're just going to judge me and persecute and ridicule me because you're heavily invested in the imperial narratives and the imperial way of spirituality and the imperial pathways of spiritual enlightenment that they have offered you.

And it's all run by the gods, all designed by the gods. And this is what happened in the great reset 12,500 years ago. And like I said, it's in the Sumerian tablets. If you care to look and do your due diligence, do not take my word for it. And everything I'm sharing can be experienced by the individual very, very easily. If you just want to let go of your investments into these other identities, these identities,

identities that we have created for ourselves through these imperial narratives. And then you go deeper, you get to the three spheres, you get your star sphere, your duntian and your Earth sphere. And those three merge out of a single sphere deeper within.
So you go beneath the three spheres and you get to your unified sphere. It is incredible once you hit that, that is home. And I'm telling you, I am not leaving home. Not again. I'm definitely home. And I see and everybody who's done this sees and I'm not alone in this. I'm not alone in this. There are people all over the world who are coming and speaking with me, sending the emails and saying, I'm home. I've experienced this for myself. I have men in this town that I provide counsel for that have cracked open, have reached their soul, star essence deep within.
And you have grown men sobbing in my presence. And their whole lives have changed their wives, their families are believing a completely different way of life now because they're finally home within themselves and they're back home in the unified field. This is not disinformation. This is the actual original intention of the construct of our species, what we were designed for.
And I could just keep going, but I know we've got a lot of other things to cover. But this is the actual reality of it. And you just got to go deeper than all of these imperial narratives. And that's the problem we have with the Federation and all of these extraterrestrial groups who are operating in these imperial dimensions of reality, they're still very much steeped in these narratives because they're of empire. They're of these imperial constructs.
Now if they want to come back home to the natural way of love, life and light, they have to stop playing imperial games. They've got to stop being empires because empires by their very nature are these giant machines that go around conquering and assimilating. They consume, they eat everything in their path. This is the problem. They're gods and empires. Once you identify gods and empires are the problem, and they are, they're the toxicity in the cosmic domains, once you get that, you're home and you just transcend all of their narratives. I respect their way of life, I get it, but I don't have to live it. I choose not to.

And I'm definitely not going back into the realms of conflict to play the imperial games of war, to have to feel safe to be in one of their empires. I'm not playing those games anymore. This whole planet and the design of our species was for us to transcend all of that, to alchemize back into unity and transcend beyond that. And that's what I've achieved. And that's what many on the planet are achieving already. It's not just me with some strange narrative. This is reality.

DR. SALLA: Okay, well, just to try and unpack what you just said, I mean, the imperial narrative seems to be something that is promoted by these sources external to ourselves that organize and use force and use deception to create organizations by which people or different civilizations will direct their loyalty, give their energy to these imperial structures. And what you're trying to do is to help people understand that within us, there is this natural way of life and love that is connected with the heart center. And as you connect with that, then you come home and you become free of that imperial narrative. So that being the case, then with the world around us that is, say, a fractal of the galaxy around us, now, what does that mean for us when you have a major agreement between these different imperial structures on the one hand, say the draconian empire, the other hand, the galactic federation, and you say they met and reached some agreement on Epsilon Eridani.

So why don't you just describe what happened?

GEORGE: Yes, and now that we've got established the background, energetic structures and the actual nested fractal structure, this was why this was able to come about because of the people that came to this planet and were embodying the actual karmic codes of these different nations of the Alpha Draconian. There's a lot of people on this planet embodying the karmic codes of Alpha Draconis, a lot of people on this planet embodying the karmic codes of Orion, a lot of people embodying the karmic codes of Epsilon Eridani. It's beautiful. So I was able to achieve peace in the galaxy because of the fractal structure, the nested fractal structure.

And so a while back, the galactic intelligence herself was closing a huge eon. So many eras make up an epoch and many epochs make up an eon. And they're not fixed number cycles. They're arbitrary.

They fluctuate because it's all to do with natural relationship the way life interacts with creation itself.
So things fluctuate. They're not fixed cycles. So leave numbers out of the equation. If you want to come back home to actual reality, it ain't rocket science. It ain't numbers and it ain't geometry. It is relationship. Everything in this universe is relationship because it's all fields of resonance interacting with one another. That is the true nature of things.
So the eon is closing. The cycle, this deep journey to separation is now closed. It has closed on a galactic level. And so the galactic mother is now broadcasting harmony and energies of harmony from the core outwardly. That started impacting all-star nations in a really significant way. And there's a lot of talk, a lot of diplomatic relations, a lot of people coming together and saying, what is going on here? We have lost interest. We're not interested in war games anymore. We're not interested in playing your games of manipulation. We're done with it.
And so a lot of meetings have been taking place. A lot of gatherings. However, the last piece of the puzzle, because so many star nations achieved peace already, but the last piece of the puzzle was the Eridani piece. That is the lynch pin. That was the last one because that was the central hub of conflict between Orion Alpha Draconis because it was through their trade route pathways between the two systems. It was such, I'm trying to find the words now. I've got the energy trying to find the words. It is the mostly woman who embodied it and men. I for one embodied that too.
And we've all had a life of deep suffering, a lot of abductions, a lot of mental, psychological, emotional, energetic warfare going on and physical trauma. It's been quite a difficult life for many. And we've now come to that and because of the fractal nature, the alchemy that took place here on the planet in such an intense, compressed, dense form has now brought about that peace. And we're able to get the tribal factions, because not all tribal factions from Alpha Draconis want peace. The ones that do want peace, I'll say the majority now do want peace.

They've reached a level of maturation and they're not playing their games of blame anymore. Blame and pain and war, in other words, entering into violence and violation and control domination to force their way upon others. Both sides now and factions from Orion have, because that was the last two big ones, being Orion being the embodiment of, if I'm going to tell the full story, I've got to go back to the Andromeda galaxy, the husband galaxy, natural man, an aspect of the universal creator itself in the male archetypal expression and the galactic level.
And then it's the husband galaxy to this, the mother galaxy, the Milky Way, a direct aspect of the universal intelligence in the mother archetypal, galactic construct and expression. And it's her womb that's running it. And now the Andromeda galaxy incarnating as Orion, because you've got to have these archetypal expressions on a stellar level of things too. A stellar expression of soul, spirit and consciousness. So that's the Orion system. That's the father archetypal.
DR. SALLA: Can I just throw in here, George? Just something that I think most astronomers would say. When we talk about the Orion system as having a consciousness, or as you're saying, that it's a kind of fractal representation of the Andromeda galaxy. Now when we look at the Orion star system, we see the hunter and all of that. But in astronomical space, I mean...
GEORGE: It's a giant nebula.
DR. SALLA: Yes, well, I mean the Orion system is just this vast area. In what way is that real? I mean, like we create the zodiac by looking at the stars and giving them names and thinking, okay, well, this is what Orion looks like, and this is what Libra looks like, or Virgo, and Sagittarius, and all of that. But in reality, those stars are like hundreds or even thousands of light years apart. And so in what way do they form a unified consciousness?
GEORGE: It's known as the Orion nebula. It is the energy source that's holding that arena altogether, and that's why it was the responsibility of that father archetypal energy to hold the arena of war. Right? That's why the Orion conflict was the biggest conflict that took place in our galaxy.

DR. SALLA: Just to kind of like get some clarity here. Now, when you're talking about the Orion nebula, are you talking about that nebula? I thought there was a nebula within the kind of belt of Orion, as opposed to the entire Orion constellation.
GEORGE: Yes, well, I refer to there's small nebulas, but a nebula is also a huge cluster of not just gaseous particles, but stars. It's a huge arena. It's a huge area, and all the stars have the light vibration that are similar to each other. They have the similar frequency. They're all part of the same energetic pattern. Yes.
And because of the fractal structure, how we view them and seeing it as the father archetype, the hunter, the provider, the protector is a fractal representation of the theme of the intelligence, the spirit and the intelligence that is that star system, if you want to call it that, made up of hundreds into over a thousand stars, which make up Orion altogether.
So the ancients knew that. That's why they were able to see what the energy is of that star. So this knowledge is not like the Zodiac didn't just come from a group of people going, oh, that's a pretty color. I think we'll just imagine that in the sky. No, it came from conscious relationships. It was known back then. We've journeyed deeper into separation, but back in time, there was a much greater awareness of the construct of life. This is what was handed down to us was from known knowledge about the construct.
And we've been screened out of it over time repeatedly. And now we've journeyed deep into separation. The veil is really thick in our conscious awareness. And now as the cycle closes, we're coming back to it.
And when you come back to your heart, so lessons, you will reconnect in conscious relationship with all of it. You will remember who and what Cirrus is, that Cirrus is the Milky Way galaxy incarnated in her own galaxy as a stellar system. That is the mother star system within our galactic realm that manages everything. The Orion is the father archetype.
And the Alpha Draconis is the jealous brother archetype who went deeper into separation and was in opposition to Orion deeply. And

that's where the Draco Reptilian factions spawned out of the Alpha Draconian system. This is all known.

DR. SALLA: Well, yes, I guess there is astrology and then there's astronomy. That people have been talking about that for thousands of years, as you say. But just to get back to this Epsilon Eridani meeting, the Draconians agreed to something that you're saying that this had tremendous significance for life on Earth. And my viewers would probably be very interested in that. How's an agreement reached on Epsilon Eridani going to impact me?

GEORGE: That's a very good question. You see, the way the agreements are achieved, the agreements are ratified. It's not a signatory thing on pen on paper. It's not like that. There's a huge space like an arena that was set up there.

And the life force and the intentional streams of the soul, spirit and consciousness, spirits the love energy, formless love energy and consciousness is mined, yes, is cosmic mind energy. And the soul is the unified nomad where spirit and consciousness emerge from into love and knowledge.

So the soul, the wholeness, the unified is being able to express itself from every star nation. And it is expressing itself in the arena.

And it is a fractal representation of that star nation in real time. And the way each star nation is interacting with another star nation, it is one of the most beautiful things I've ever experienced ever to bear witness to the beauty and the love and the way these energies, the life force energies of these star nations themselves the representation of all life within their stellar embodiments, these stellar intelligences dancing together and in real time to see the way they move and they interact and they dance with one another. It is one of the most beautiful things I've ever bear witness to in my existence in this universe. And that is how the peace treaty is ratified there and it is currently being bear witness to like in real time. Your microphone Michael.

DR. SALLA: Okay, thank you. Yes, you know what you described sounds like a very beautiful process that emerged out of whatever happened on Eradani. But I guess the question that people would have is well, I mean what are the kind of details of who made these

agreements? I mean, did the queen of the Draco Reptilians or the empress of the Draco Reptilian empire kind of show up and like agreed to something with the say leadership of the Galactic Federation and exactly how and who was involved in this agreement.
GEORGE: Sure. So you've got the intelligence of the stellar intelligence of the star nations in conjunction with the leading representatives, which are not people voted in or anything. This is wise elders who are in the deepest conscious relationship with the stellar intelligence itself. Like we all live in this solar system. How many people are in deep conscious relationship with the Sun, which is the source of all life. I mean, you exist here because of your relationship with the Sun and your relationship with the planet and how much time do you give that relationship? See, so I'm just proving to you how deep in separation everybody is. Okay.
So in the natural way, everyone is in deep conscious relationship with the prime creators of the realms that they occupy. Yes. So the factions, the factions of the Alpha Draconians are the wisest elders who have the deepest conscious relationship with the stellar intelligence with the intelligence that is the Alpha Dracona star system. Together with others who are around them because it's not a hierarchical thing. It's a relationship thing conscious relationship. Right. And it's an energetic thing. Who's more energetically one with? Yes.
So there are others too of tribal leaders who journeyed to Eridanus, embodying representing and even their clothes. It's amazing to see the clothes. The clothing is an energetic representation of their star nation and the way the energy moves on their clothes are just phenomenal to bear witness to. So they're the ones who came, not the traditional imperial leaders as you would know it.
So only those who have been able to transition into this conscious relationship were able to come and bear witness. Now the imperial leaders who have made a decision to come back home to peace, they answer and are in diplomatic relations and deliberations with those wise elders. Yes. Who are the actual representatives of their star nation.

So the imperial leaders are now seeking counsel or getting counsel from these wise elders and are somewhat themselves already beginning to achieve conscious relationship with their star intelligence, their starland and environment intelligence. So it's the same from Orion. There's one star system, star nation in Orion that is still choosing separation. In other words, realms of conflict. Yes. Everyone else in Orion is coming back home to peace. In Alpha Draconis, we have three factions, tribal factions that do not want to come home to peace. They want to remain in the realms of conflict, in the realms of separation, not unity.

So, but the rest of Alpha Draconis wants peace. They're all coming home. And the codes, the codes of harmony are all being sent back to the respective star nations and the wise elders are now able to steer and guide their peoples to make the actual changes that they need to make. So the primary and principal action that is required is getting as many people as possible of their peoples to come back home in conscious relationship with the prime creative intelligences of their realms, not to live in that state of separation. That is the key. And this is what I've been teaching for nearly two decades. And this is what needs to happen on this planet. And this is what disappoints me when I'm hearing all these narratives from all these extraterrestrial channelings, beings from the Federation, this, that and the other. This is not spoken of because they're an imperial construct and they're deep in separation.

And this is what needs to happen. The most important thing that we as a species could do is to just relax back into our heart soul lessons because that is the doorway that gives you access to creation, the unified field of creation. That is the most important thing that we can do as a peoples and as an individual. If you make that your priority in life, if you spend just five, ten minutes of your day to begin with, just sitting in your stillness, not sound healings, not meditative things, anything like that, all you need is your own stillness. You don't have to do breathing exercises.

It's all that stuff stimulus based. All you need is your stillness, your breathing slows down. Right? My breathing goes virtually still for long periods of time. And you just journey inwards and just in a deep

relaxed state. And then you're back home in your soul and then you're connected to the unified field. That's it. It's that simple. It's like, it was right under our nose the whole time. It's like, oh, there it is. We didn't even know it. Yes.

DR. SALLA: Right there. Well, I think that's very important what you just said there that we, I mean, this is what we all are on a journey of discovering is that as we learn more and more about the whole exopolitical phenomena that we get a tremendous amount of knowledge, but then we realize eventually that the most important thing is wisdom, is this realization that really what we need to do to deal with all of the wide range of issues and challenges in life and dealing or understanding what's happening in the big picture with the different extraterrestrial groups and the empires and the gods and so forth, is that wisdom of being able to make that connection with that stillness within.

And that's the fulcrum. And once we do that, we're going to start remembering who we truly are. As you say, that's coming home and that's going to help us really understand the big picture. And it sounds like this is reflective of what you say happened on the Epsilon Eridani that 100% that it was like these masters from the different empires, the different civilizations, including Alpha Draconis just kind of showed up and it's like, okay, let's, let's work things out. Let's find ways to get it.

GEORGE: It was a commitment. You see, it's a commitment and it is, it all comes down to the quality of your conviction. And the quality of your conviction all comes down to how authentic is your soul expression. Are you still operating from a program, a false identity? Yes. And steeped in one narrative or another, or are you going to be your true soul expression? Yes.

So I'm just me. This is me. You know what I mean?

And, and working through letting go of all my false identities over the last, especially the last three years, and especially the last nine months has been deeply challenging because what Empire does is it traps you here. It's all about consciousness. It's all about mind and their version of a light and it is purely mind enlightenment. Whereas when you come here, it's full spectrum as your entire being. Yes. The

biggest challenge I faced, which is the biggest challenge anyone faces be it an Earth human or in any of these extraterrestrial civilizations and all the different species, the biggest challenge anybody faces is to let go of the identities, what we've identified ourselves through these imperial narratives. That is the greatest challenge we all faced.

And in the Eridani peace treaty was a true commitment, which is seen in real time in that in that ratification of that peace treaty with the way the energies of the star systems are being represented. We're seeing it in real time. The moment anyone sways from it, it is seen in real time, right?

And you see the progression of evolution of maturation of true spiritual enlightenment is realization, inherent realization from deep within. That is true spiritual enlightenment. And it's not something that you've got to think that you must achieve something that does not exist. Right? The only area it doesn't exist is in your own mind and your own consciousness concert. That's it. The rest of you is there. It's already there waiting for you.

So all we need to do is relax into ourselves, into what's already there. We have it all within us. Even Christ said the kingdom of heaven is within. It's all there. Know thyself. It's simple. But it's that simplicity because what Empire does is it gets you lost in the labyrinth of complexity and bedazzles you and bombard you with all this information and data and keeps you just pulled into that thing. So it's all here. We've got it all. The ripple effect from the Eridani peace treaty now is reaching our shores. And I would love to get into the update from the three admirals in regards to all of that if you have time for that.

DR. SALLA: Yes. Sure. Sure. I just wanted to recapitulate what you just said because I think that is very important so people understand the significance of why you wanted to spend time and share this update from Epsilon Eridani, this peace agreement that the wise elders from all over the galaxy and beyond met there. And I don't know if it's the first time they've done this or whether they've done it.

GEORGE: Not to this degree. Not to this degree. This is the biggest gathering that has ever, and I mean ever happened in the whole

lifespan of this galactic realm. So every star nation was represented.
DR. SALLA: OK. So all these major star nations and alliances met. They sent the wise elders who obviously are able to communicate with one another at a level that is much higher than say political leaders or imperial leaders. Oh, yes. The emperor or something. Yes.
GEORGE: No. This is creational. Like all the implies exist within the structure of the creation. That's like all the commentary we do on the geopolitical level and all that. That's all within imperial structure playing out in the human world. But those trees, the dolphins in the ocean there. They're not interested in any of that. You know, they've got to put up with our emanations at a toxic and they're doing their best to process. You wouldn't believe what the job trees are doing in our world. They're processing human ego, distorted ego emanation. Right. That's their job. Yes.
And grounding it and recycling it. And that's why also with our breath, they take our breath out of the sorted emanations and they process it and they turn it back into oxygen for us to have clean, clean breath again. They take our dirty breath, they clean our dirty breath and then they give us back clean breath. Trees are our best friends. You know what I mean?
DR. SALLA: Yes. Yes. I mean, I totally agree with that. I actually do get out there and practice hugging with trees or connecting with trees and you know, and this kind of stillness that you have been. It's all in the stillness. It's like trees are really wonderful for helping us ground in the stillness. Like if someone doesn't know what it means to be in that place of stillness and find the stillness within, just go spend some time with some time with a nice big tree, find a tree and just put your hands on it and just like the five minutes, just try to connect with that tree's energy and you will feel stillness. And then that'll make it easier when you go home to feel it again.
So you know, just kind of like again, just to finish off like just summarizing what you said. So all of these ways elders from the different star systems meet up on epsilon, aerodynamics, they reach an agreement, which then means that both energetically and at an informational level, they're going to relay that back to their respective

empires and collectives. And we on planet Earth, I don't know if we had representatives there or yes, we went there was a Babaji or was a one up tomorrow. Who represent?
GEORGE: No, none of those sorts of beings. They're all empire. They're all in.
DR. SALLA: Okay. Well, yes, I'd love to hear who went there. But I guess the main point is that whatever was agreed there at an energetic level, informational level, that is now come to the Earth or we are seeing the ramifications of that on Earth.
GEORGE: Yes, we are. We're already seeing that. And I'm bearing witness to people who are the incarnations, really prominent representatives of these star nations, leaders, elders. And they're just like everyday people, right? And not anyone significant in this world, the way we see it in like political hierarchies or spiritual hierarchies or whatever. No, no, because our whole system from the local council up is all imperial toxicity. Now there are some people dotted in and amongst all of that that are of the natural way who are undercover agents, you could say, if you want to put it that way. But the majority of the actual real elders and leaders and representatives are people like you and I Michael and others. They're just everyday people. That's why it's a grassroots effort this time. It's this real disclosure is going to come from people like you and I and everybody else listening to this. It's not going to come from the so-called officialdom. No, they answer to their overlords. If you really know the structure of things, they are steeped in answering to their overlords.
There are some who will play somewhat of a double agent role, appear to be a bit of a white hat for a while, et cetera, et cetera, but we are the ones. We're the ones we've been waiting for. Remember that one from came out in the 80s, 70s and 80s, right? From the actual when just real disclosure was occurring back then, from wonderful people that were sharing ET disclosure back then in those days and the real narratives were coming through until the 90s where it all got changed and all turned dark. So we are the ones we've been waiting for. That's it.

And the elders of all these star nations out there, their people's had already begun to let go of the imperial ways come back to the stillness within and connect to the inside field of creation. Right? So many of them are already underway. The Lyrian system, that was the second biggest journey to separation. The Lyrian conflict was second to the Orion conflict. It was a very, very painful time. Now the Lyrian Empire isn't letting go of its imperial ways. They're coming back to the natural. Yes.
And there's only a couple of factions, two factions in the Lyrian system that want to stay in that journey of separation. And just for the record, the ones who want to stay in that separation and continue their journey in the realms of conflict, they are going to be quarantined into these synthetic timelines, very tightly quarantined from the rest of the galactic realms because everybody else wants peace. And these are only going to be few dimensions that are going to be very deep in separation. But everything else in the galactic realm is coming into harmony.
DR. SALLA: So we're going to come back for part two of this interview with George Kavassalis. And there we're going to get an update from the admirals and talk about some other disclosure related events that are happening in the United States and globally.

PART TWO [Behind Patreon pay wall]
DR. SALLA: Well, welcome back to part two and I have George Kavassalis here with me now and we are going to resume from where we left off in part one and we are going to talk about the three admirals or the Jedi admirals that George told us about I guess a couple of years ago. Yes, why don't you give us a kind of like, well maybe for people that don't know who are the three admirals maybe just give a brief synopsis of who they are and then give us their most recent update.
GEORGE: Yes, so a brief explanation here but also I want to recommend that people go back and listen to our interviews Michael from spanning from a couple of years ago when we first started, I first started sharing about the area and the call it a department or it's

not really a faction as section and area within the Secret Space Program that I'm working for and with because I also provide council to them because of my multi-dimensional nature and we all have that you'll have your multi-dimensional nature.
So the three admirals are beings that it is in there because we operate in a creational level it is in their souls journey to fulfill this role and it is an area within the Secret Space Program that has merged away because you had the Nachtwafen which I was originally recruited into in the age of four when I was living in Germany and because of my father's connections and the work he was doing behind the scenes he worked for an organization that sat between the OSS, now the CIA and back then it was the Cosmos Club also now known as the MJ-12 and he was stationed at Dayton, Ohio, Wright Patterson back engineering for about a solid six month period and stories mum told me the men in black come and go house and all sorts of stuff.
So that's part of the back story for me into the SSP and then the admirals the department that I work with was because of the nature of the universe if you have such a dark expression of the Secret Space Program then by the nature of it what will emerge is a contrasting expression of that by the nature of the universe and you'll have an altruistic is the best word you could use it is the altruistic branch of the secret Space Program and that was kept really quite really secret for obvious reasons because the dark what we call the dark the ones that are in the very deep separation.
It would have created a lot of conflict so this department of the Secret Space Program be started emerging into frequencies of realities because they had all this technology for a long time to go into other frequencies that's how cloaking works and all that sort of stuff and they went into this other dimensional space where the knockoff and didn't wasn't even aware of and don't have access to because these are all dimensional frequencies that are into realms of harmony and this became the altruistic branch of the SSP.
And so all the people recruited into that space were looked at on a soul level to see if it was in alignment with the soul's journey of the individual that's how when you operate from a creational level that is

what you look for it's not a surface psychological test and then you get put to the test for your loyalty through trial trials and tribulations and challenging circumstances like the knockoff operates to see if someone's going to be loyal like you know doing really unsavory horrible things.
And so it is naturally known from the being soul that they are to journey into this space and these three admirals were the ones that from a very young age it was known what their role was going to be in pride incarnation and because a lot of these conversations happen pride incarnation as well and things get set up and then once you come in then you live the parts of your journey and then it gets to a point of journey where you are then pulled out of the other faction and then brought into the altruistic faction.
And these are the ones that are the most prominent. These three admirals have the soul essence and the, it's called soul agreements of co-creation with the planetary intelligence and with the soul of humanity as a single organism. And these three admirals eventually were prepared. There were a lot of meetings with different extraterrestrial races because they were going to embark on this journey of similar to like the original intention of Star Trek to go out and explore in a non-combative way to learn about life.
And that's what they did. And when they met all these different extraterrestrial races and civilizations and different peoples, they were waiting for them because these ET races are and interdimensional races, most ET races are interdimensional, okay? Is they knew that they were coming because it was even prophesied in their own cultures this was going to occur.
So they were waiting for them and ETs gave them safe routes. They were even protected in their journey by these different groups. And they went and they sat, they sat with the elders of these different peoples and they learnt so much about their ways of life, their technologies, their trials and tribulations, what they went through beforehand. And these admirals weren't so much.
It was three craft, admiral for each craft. And they were quite advanced, but while they were out there, they got seriously modified as well. And the modifications were to bring the intelligence of the

craft itself closer to creational intelligences. It's all about, right? And so they went through changes to such a degree that when they came back, they were Jedi-like. Like their ability to be one with so-called force, which is really the, that's more of a shallow level because it's still in the realms of conflict.
You go deeper than one with the unified field of creation. And they were able to steer and guide due to the degree of maturity, spiritual maturity, and wisdom gained and the wisdom they're embodying because everybody is assessed by the emanation and it's a conviction, the quality of your conviction, the quality of your soul emanation, your soul expression.
Are you living from here, a programmed, false identity version of self? Yes, or are you living from the core of your existence? Yes, and that is how people are assessed out there.
DR. SALLA: Just before you go into the update, I think what you just said is so important that the beings out there recognize when we are in that heart space, where we are in that fullness. And just maybe elaborate on just how critical that is in terms of us having face to face encounters with beings at different levels, whether we're talking in our Earth, whether we're talking beings from other worlds, that we are in that heart space because they recognize that. And also, I think this is the critical point is that when we're in that heart space, we recognize others out there who are in that heart space and we can differentiate between those who are in the heart space and those who are the deceivers and the manipulators 100%.
GEORGE: I mean, even my neighbors freaking out because the dog just wants to be here with myself and with my son. You know what I'm saying? It's like their dogs never done that before and it's always running over. He always wanting to be with us. It's, I sit and I put my feet up on my stool and I've got birds that land on my feet. They come and sit next to me and roost and just we hang out. I have like it's constant like that, that oneness with nature. You know what I'm saying? It's, I was in South Australia with my boys and we went for a swim in the ocean and we have the dolphins come straight around us and swim around us constantly. You know what I mean?

It's a really beautiful thing when you come home to the natural way of love, life and light and be one with creation once again. And wherever I go, the Australian aborigines recognize me that I'm up the dreaming and I would sit with the elders and share star lore. They acknowledge me of being a crow man, right? My two main totems, other crow and the hawk and then I have other totems, the lion, the dolphin and the whale. So it's like you are seen by those who have that ability to see.

And when you're one with life again, the extraterrestrial races, they love that because they can be comfortable. They know they're with a kindred soul. Now they're willing to open up, now they're willing to communicate because also you have the maturity to handle what is being shared. You're not going to misuse the knowledge.

You don't have other intentions, like to be given incredible knowledge on technology and to not have the want at all, the desire at all to use it to create a weapon at all, right? To only use the knowledge in a way that in a co-creational process moving forward, that's mutually beneficial to all involved. Yes. And then life becomes this really wonderful adventure of curiosity and the creation of new things, new realms, new frequencies, new ways of doing things that are harmonious in nature, and it amplifies life.

And this is what the universal intelligence absolutely loves. That's why when you come back home to the natural way of love, life and life, all of a sudden there's this conspiracy that happens in your favor, right? It is amazing, even my real estate agent who, because I'm renting this place, but where I live is just so beautiful.

Even the real estate agent's like, I don't know, George, you and the universe, it's like even the events of acquiring this place were just so extraordinary, the circumstances. And this is sort of thing that just happens time and time and time again. You just in that natural flow state because when you get one with creation, now you're flowing with the evolution stream of the creational intelligence that you are within and in deep relationship with.

It's the deepest relationship that we're having, right? Is the relationship of the prime creative intelligence that we are inside of? It is the source of your existence in the realm. Is that relationship that

we're being cut off from that relationship in the conscious awareness state? And we've just got to come back to it. And then after that, once you come back to that, then it reverberates outwardly and impacts your whole life. It impacts your health and wellbeing. People can't believe that I just completed 60 orbits. People are looking at me and going, you look like you're 40, you know? And it's because your soul is timeless, it's eternal. Yes? And that reverberates through your entire structure. And we are the prime creator of our own existence. And once you get your foundational relationships good in good stead, yes?

Because we're a fountain, it's just like, it just pours out into every part of your life. And you don't have to worry about anything. It all, everything just takes care of itself. It has to. The universe has to conspire in your favor. It's the nature of the universe. It's the way this reality was set up to operate. It's what we were originally designed for.

So all the people that are going to be sitting in meetings in the future with extraterrestrial races, with wise elders are people like us Michael, are people like you who's watching and listening to this, who have that capacity to come back home to your true nature within, to your soul essence, your heart's soul essence. That's what they want, that's what they're looking for. They're not interested in leaders driven by ambition. Why would they want that? That is the consciousness structure of the source of all toxicity and all the pain and suffering in our galactic and cosmic realms. Everyone knows it, right? It's so obvious to everybody.

DR. SALLA: And it's only- That's what's very important, what you just said there, that the extraterrestrials, when they come and openly interact with humanity, what they're looking for is not people who believe they have a lot of power on our other leaders and on the representatives in the book.

They look for those who have, as you say, come home, made that inner connection, and whose consciousness is truly something that is connected with the, say, infinite source intelligence, and that they recognize them as the true leaders, because that's who the people resonate with.

GEORGE: Now 100% that is absolutely, that's an absolute actuality, that is. And I know already about my timeline, my soul's path at the upcoming time, they'll be already like I've already stood in the University of Barcelona in front of 300 people and spoke for 12 hours on stage, right? I've already stood in the University of London in front of 150 people and spoke for 10 hours on stage. Yes, I've already done that over a decade ago. Right?

I've done all these things. People, yes, if you're not aware, they've already done all these things. So that's going to be more of that and a time will come and we will be speaking in front of very large crowds. And, oh, see my heart skipped a beat. Because it's the stage fright, it's the energy of it. And even before I spoke to you, I said to my son, I said I'm a bit nervous. I said, it's good to feel that it's kind of a reality check, keeps you grounded.

And it's the quality of our conviction. Like, like reality just is and yes, do a branch those two toxic, but I told you about, I'm going to do it now, feels like now is the time and then we'll go into the models, yes? Okay, fair enough. Because what's been identified is what these imperial and these gods, structures have done is, what are the two most toxic consciousness viruses in the human collective? And I mean the two most toxic of all, and not what you think.

Most people think fear, sure, but that's quite a general thing. Now, I mean, specifically the two most toxic, active ingredients that are destroying your consciousness and destroying the human collective consciousness. And this is how we take down the matrix.

The matrix is truly a multi-dimensional consciousness structure is inside your head. That is the problem. That is where that is the final frontier is the internal arena and it is in here. And the two most toxic expressions of consciousness are righteousness and relativity. Those by far surpass everything else. Now, let's go into detail about each of those.

Righteousness, the entire religious world, all religions are deeply infected with it. Let's have a look at the whole new age realm is deeply marinating and so deeply infected with righteousness. All the imperial narratives, they reek of it, they reek of righteousness. It is so toxic, so toxic. And that is something that you most desperately need

to work on in your own consciousness because we're born into it. And I highly, highly recommend sitting with yourself and going, where was I extreme on my righteousness in that conversation, in that argument, in that debate? Now, that's different from standing true in authentic soul conviction, right? Don't get the two mixed up. Right, don't get the two mixed up. It's really, really important that you don't.

The other one, *relativity*. Oh, that is so toxic, so toxic. It's infected everything. It's infected everyone's mind, especially the new age narrative. It is spiritual political correctness gone mad. And I'll explain it, this one's a real big one. When you come home to the natural way of love, life and light, everything just is. The structure of creation is the structure of creation.

The original intention for this solar system, for this galactic realm, the solar system and the planet and our species, just is. It is the same for you. It is the same for me. It is the same for everybody. When you get out of the toxic imperial identities, where you're invested in one narrative or another, and people go, well, that's your reality. They ain't my reality. That's your perspective.

No, the Eridani peace treaty and the fractal nature of things is not my perspective. It is not my individualized perspective. It is the structure of the reality and the nested realities you and me and everybody is inside of.

Nothing relative about it. That you have to get away from relativity. Oh, it's just such a powerfully toxic thing. Please, I am, please, I am sharing with you the most toxic consciousness viruses doing the rounds in our human collective. Relativity is such a poison. Such a poison. You have no idea and even the world of science got infected with the theory of relativity.

Like, please, once you come back home to everything just is, and then you have your natural own individual experience in a minor way, and you can go, yes, well, I've experienced this this way. You experience that that way. And, but that's on a minor level. That's on a superficial level. When it comes to the nature of reality and all this naval contemplating everybody's doing, and you go to a chat because there's interdimensional entities, people channeling

narratives, and these are all beings from empire and they are poisoning people's minds about the nature of the multidimensional nature of reality.
Yes, there's nothing relative about it. Absolutely nothing relative about it. The structure of creation is a structure of creation. Get away from relativity. The sooner you get away from relativity, the better off you're going to be. Because now you're going to be one with creation, you celebrate your own individual soul expression. In unity with the structure of creation.
DR. SALLA: I wanted to follow up on one of the points that you just said there, that when people are channeling entities from out there, that they are in this kind of like, in this relatively framework and that it's imperial when you're channeling. So there's a lot of people out there who believe they're channeling Ashtar or they're channeling, say Archangel Michael or they're channeling some other beings, some celestial or some extraterrestrial entity. And getting information and relaying that.
Are you saying that really ultimately that information is overlaid by this kind of like relativity and like the imperial thinking or the influence of the gods? And that ultimately the only information that really is worthy of attention is that which comes from within, comes from that still point.
GEORGE: Yes, because, yes, look, having a natural conversation, like my relationship with the admirals, I don't have an implant, for example. I don't use that to communicate with them. I'm in conscious relationship through the unified field with them. Okay, so I can have a conversation with the Sun. I can have a conversation with the planet. I can have a conversation with the galactic intelligence. I can have a conversation with someone from our terrorist or Cirrus or whatever. That is conscious relationship. That is different to channeling.
DR. SALLA: Well, that's one to ask is, yes, when you have a conversation with these different entities, I mean, you're not talking like, yes, words are popping into your head. You're talking about really a kind of like a communication or a connection. And from that, you get information that gives you answers to questions around you. So is that really what you're saying?

GEORGE: Yes, it's an energy on a soul level. And because I've been down this path a long time, translating your soul's voice, if you want to put it that way, it's an energetic emanation, then translates up into here. So I don't get things coming down from above through the pineal gland into my head. Right, I blocked that. I got rid of my chakras a long time ago, I integrated them and transcended the chakra system years and years and years and years ago.
Right? How long ago was it when it happened? Somewhere around 13 years ago, I transcended my chakra system. And so it emanates from within. We are fountain because your intention to be here in this plane, in this reality, to be incarnated here is an intention that is streaming in. And it streams in the reality of it, it goes through the galactic core, to the solar core, to the planetary core, and then into the core of your incarnation.
Right? Because you're streaming with these real prime creative intelligences. So what comes up from the galactic core into here? And then it emanates outwardly like a fountain. So my consciousness gets information from my heart, soul lessons. You can call that my first die. If you want, my one and true and only actual eye of awareness is my heart, soul essence, that in a light, my soul star essence within. So, and that emanates into the mind space from there, in a generalized, not to the pineal gland, just into the entire mind space, the field of consciousness.
And then it goes into the brain, electromagnetically, and then the brain translates that into firing neurons. And then I, through my identity, convert that into words, which I can then share with you.
DR. SALLA: OK, thanks for explaining that. So, I guess now are we ready for the update from the animals?
GEORGE: Yes, sure, sure. And now what the animals wanted to share with everybody is, because of the fractal nature and the Eridani peace treaty, is there was what I call the lead admiral. He was at the Eridani peace treaty. Parallel to the one that was happening on a galactic level, there was one that was taking place in our solar system, and that was in on Jupiter. Because the nature of Jupiter, the intelligence that is Jupiter, now I'm going to smash Western astrology pieces, because it's wrong, just plain wrong.

Jupiter is a feminine planet, and it is the archetype of the Amazonian warrior woman planet. That's why she's the amplify of everything that takes place on this planet. It is, this is a woman's world, and it needs a more authoritarian woman warrior energy to make sure that that is what takes place. It's a sister planet to this planet, just like Venus is a sister planet to this planet.
And it's like the moon is a sister planetoid to this planet. Yes, but playing a different role, she's playing the role of the ice queen to help in, she volunteered for that role. Like if you feel into the moon in another dimension, then you'll get to her true nature as the white lady from Ceres. But it originally was constructed in the star system, from the Pleiades, from the Maya star system.
That's why they call the illusionary mind matrix emanating from the moon, they call that Maya. Yes? So, it happened in Jupiter, the second one. And then the third one took place on our planet. And these are parallel peace treaty meetings that occurred all at the same time. And where I asked, am I allowed to know where on the planet this planet, it happened?
They said not really because this is really sensitive, this location. But I can give you kind of, this is what they shared with me that I can say, is there is a transport system that connects the actual location of the meeting place that took place on our planet to Green Mountain, the Green Mountain facility. One of, because there's a lot of tunnels that go from there out, one of them goes to this location.
That's all I can say. This location also has a transport access to what you would call the White House. And so one of the admirals was here in that location for the meeting, and there was global elders and leaders on a not so altruistic level, but they were a part of it, they were, they've been read in. And you're going to see changes. The, I'll get to the political ripple effect in a sec.
And the one in Jupiter took place, which was reported by somebody else as well. And you're going to see more people talk about this treaty as we go on in the time. So the three admirals, one on the galactic, because the fractal nature, one had to be in the solar system, one had to be on the planet. And the ripple effect on the

geopolitical level was the fact that there was ground troops that were ordered for the ground invasion.
It's not what you think. It's a background thing. And parallel to that last Tuesday, I was involved in an operation where what people don't realize is the associated with the Draco Reptilian control structures of our world is what we would call dark magic and sorcery. Their control systems go hand in hand with that.
Like the monetary system uses all sorcery.
The media uses subliminal sorcery through all music, through all movies. When I sit and watch anything, you got to phase out from all that stuff that you make a statement. I make no further agreements. I do not take on any of the subliminals and sorcery and magic being used because it's everything in our society is infected with dark magic.
That's a fact. Sorry, it's just it is what it is. That's how the Draco Reptilians operate. They operate like that in every reality that they conquer. And I was involved in an operation and this was in the UK. It was on my Tuesday night. And interestingly, I was used as the bait and I wasn't even aware. While I was in the operation that I was being used as bait. But I was allowed to be taken to a building in the UK where there was a gathering of really unusual people. Because we're dealing with that side of life now. And there was a lady with short blonde hair that said to me, “You must come with me and now.” And so we walked out the building and we went into a grove where there was a stone like altar thing and there was stone circle around with little stone markers. And then when I got in there, she walked into the middle. Out of it came all these druidic cult members. So this was like a very dark druidic council. Not the good guys. The natural original druids were very wonderful, beautiful beings.
But what has become of them since like free masonry, right? The original stone masons were one with the elements, one with the mineral realm, one with are in the unified field of life. And the teachings were beautiful. And now what has it become? It's all about the great architect. It's all about numbers and geometry and kabala and this, that and the other.

Right. So far removed from the original of what it was originally. Originally, it was wonderful. The buildings were created naturally from natural elements. And the ones that were built properly have stood the test of time.
Right. You know that because the energy that runs through it, the integrity of the building itself. And all the ones that haven't just crumble. That's why in Egypt, all the ones that are pyramids that were built using slaves have crumbled and they're much younger than the main ones that were built with integrity and conscious relationship that have stood the test of time, stood through the great floods, stood through every epoch ending since they were created. The original great pyramid, that location, the original construct was around 36,000 years ago. It was the original temple that was built there. Anyway, so I was taken to this location and then they came out and their intention was to do dark magic on me to take me out because I'm such a threat because I'm speaking reality.
I'm a voice for creation. Right. I'm a voice for creation. I speak what is real. Yes. I have a passion for what is real. I only want what's real. I hope you only want what's real. And to get to what's real, you get to get to what's real inside of you. That's your doorway to the unified field, it's reality, right? So that's a frequency that they cannot stand. They hate it.
Right. They despise it because I'm the antithesis of what they are. Yes. And they wanted to take me out. They want to do dark magic. Well, they can't take me out. They've already tried. I've had many assassination attempts in my life and they now know not to play that game because if I decide to take any action, then they're in serious trouble.
But I'm not interested in doing that just because you can doesn't mean you should. Yes. I don't want to be like them. Yes. So but what they can do is play this game where they can systematically apprehend you and then use you as their asset and you see it happening all around. They've tried this on me. There were times in my life where they did have the better of me. And it's been this ongoing battle. But now it's game over.

So I'm standing there because of the quality of my conviction of my soul lessons, my soul light. No one can take me away from that anymore. And I had about a dozen of them around me and they had their staffs and they had their robe where they didn't have their hoods on, but they had robes and the robe colors were like gray, gray, blue, and a little bit of brown. It was the mottled sort of threw it in green and tree staffs, like branch staffs.
And when they did that, all put their staffs in the ground the same time. This energy came towards me and I just stood there. And I was just like, you have no power over me. And their energy just bounced off and hit them and just obliterated them. They got it back. I just like held up a big mirror and they just got back what they threw at me and just flattened them.
And the lady freaked out and I said, what next? And then we went into away from that grove into a building, red brick building. And this was where there was a big operation. So now they're trying a second stage on me where they were going to try and apprehend me and inject me with things and whatever. But this building was full of operatives.
There were about 120 operatives in that building because the UK is the headquarters for, on an operational level, for dark magic on our planet at the moment. It's not the full source of that energy, but it is operationally.
And I'm working my way towards Iran, by the way, in this conversation, in this dialogue. And what happened next was, as we're walking through the building, very sophisticated equipment in there, very high level operatives and people working on all this level. Space Force came in and then I switched consciousness from being an unconscious operative into fully aware of what's going on.
They came in, they had all their blacks on to their equipment. I was like the helmets they had on it just next level technology. Wow. And they had their skin suits underneath their blacks connected to their helmet. It's I could go on for ages about how that helmet operates, but I've got to I've got to be quick about this because there's so much to talk about.

And Space Force in conjunction with Solar Warden and our department of the SSP members of that, managing this operation, we took out in the UK last Tuesday a huge operation linked to the Tavistock Institute. So you're going to begin to see that we're dismantling the consciousness control structures of the matrix on the planet. All right, we are dismantling them bit by bit. It is ending.
And this is the ripple effect of the peace treaty because these entities are connected to these Draco Reptilians. We're shutting down all the wormhole access portals, access routes from the Alpha Draconian, Eridani, big dipper system linking into Orion, all of their access to us and from other systems, associated systems, because they've got the little sneaky little ones on the go. We're taking them all out. They're shutting down. We're shutting down the source of their energy.
And because the peace treaty has been signed, and that's why the forces on the ground and the draft got announced, is because all of these Draco Reptilians that are working with the, what we will call the cabal and the ruling elite, right, in general terms, they are now without the right. On a creational level, they no longer have the right to be doing what they are doing. So now, that's why it's taken so long for an announcement of ground forces to go in, to be able to hands on, take care of this boots on the ground.
And it's all going to be special forces. The draft is not going to be sending your everyday Americans in the battle. The draft is a cover story for lots of special forces operations now to go in, apprehend all these technologies, and take down the control of these Draco Reptilians, and especially the six main dudes that are the heads of the six most powerful families on this planet whose names you do not know.
You do not know the names of these families. They are hidden bloodlines, and these Draco Reptilians have been around in a life since fall of Atlantis, because they came in and brought down Atlantis, right, etc. So they're still alive up until today, and they shaped shift. They are the elder statesmen of these families, really powerful families, and the Onassis and the Rothschilds and all that.

Those are employees of these six families. And when you're in council with these six families, when you stand in council with them, they've got the hexagon. They sit on their six rows on the points of each of the hexagon, and you stand in the hexagon in the middle, and it is known as the Council of Seven. And these are the entities that are responsible for the entire infrastructure of control on this planet, and they answer to, they're much more senior overlords, and who then answer to these god entities and do their bidding.

DR. SALLA: So if you can maybe elaborate more on this ground war, and we're talking about Iran, and we're basically saying that this whole Iranian conflict, which in the major media, is presented as well, it's all about uranium or nuclear weapons development, and about the control of oil supply. That's just a cover. For this deeper control system that somehow within Iran, there's, are we talking technology? Are we talking about families, people that are connected with this ruling in Britain?

GEORGE: Yes, and because if you look at the state of Israel, that is controlled by the dark sorcerers in the UK. It's, you'll be amazed that what we call the British Empire, how it is being the source of the dark cabal on this planet, because behind all the surface operational is this dark magic.

You go into any of the secret societies and into the occult, that's headquarters, the center of London, and when I spoke in the University of London for 10 hours on stage in front of 150 people, there was 150 people there and all the people that were with me that felt experienced and lived through all the interference that was going on.

]I mean, I made Jason was, was on, on what we call the Doney, and, and the cubicle walls disappeared and two Reptilians appeared in front of him and said, you've got to stop him. And, and it was interesting that they chose that very vulnerable. You're pants around your ankles and we had a lot of jokes about that.

You know, there's a funny side to that, because if you shit yourself you're in the best position possible to do that. So, and he's like, well, what am I going to do? What can I do? You go, you go take it out

with him. And, and we were forewarned. We were at Salisbury. I did an event in Salisbury before that, and we were staying there.
I had Medwin Goodall and, and my mate, Jason, there, and we were chatting and Medwin Goodall is such an awesome man. And, and we were, and I said, hang on, there's a Reptilian has just appeared, because I could seem multidimensional, and we were having a conversation. He was one of the good guys and he said, I'm just warning you, our unsavory cousins are waiting for you when you get to the city of London.
And when you drive in there, they've got the big gargoyles and all that, because the city of London is separate. Even, even the, what you call the Queen and the King, Charles, he has no jurisdiction over that place. He's not even allowed to set foot in there. Did you know that? When was the last time anyone from the Royal family set foot in the center of the city of London? I want everybody to look that up, because it does not happen.
That is a stronghold more potent than the Vatican. Right. And the dark magic that rules that place, this is a whole different energy, a whole different entity that, that rules the city of London. It rules the entire Bank of International Settlement. It runs everything. It's the source of all the wars, the conflict, the misery and the suffering on our planet.
That is head office of operations. Okay, for all of it, for all of it. And, and that's what this operation last Tuesday is. We are now taking down that infrastructure, the dark sorcery magic infrastructure, because it is the interdimensional sorcery that's got all of you in a trance. And you have to awaken from this trance.
You have no idea how deep into it you are. And I can prove how deep into it you are. Would you like me to prove it? I'll prove it to you all right now. Yes, it's very quick and easy.
Right. You don't know who you are. You don't know where you are. You don't know what you are. And you don't know why you are. And they are the first foremost basic elemental knowings to classify a sentient life. For a life, a living organism not to know where it is, who it is, what it is and why it is. Wow. And that's the proof that you are so

deep into a trance and into a separation. And I keep telling you, this is the final frontier.
This is the war that's going on. And you need to get your consciousness back. You need to get your mind back. And it needs to get it back from here from the core of your existence. Recalibrate your mind and your consciousness back to here. And then you're going to know. So we are much deeper in the trance. The dark magic, the sorcery is all a part of it.
And it is the magic formulas behind all of the surface operation or the technology that we use, the money that you exchange, your ideas about life. Everything, it's no small thing at all.
DR. SALLA: Okay, so you explain you were part of this operation a few days ago into England and you took out all the space force. Their operatives took out this clique of druids and some people at high level positions in the city of London that are wreaking havoc around the world. And that the same thing is about to happen in Iran with this ground war where special forces will enter in. Now, and you mentioned Israel as well, that Israel is run by the same clique as in the background. Okay, but Israel isn't being invaded. It's Iran that's being invaded. So explain that.
GEORGE: Israel is being taken out. It's like any nation state that is going to continue to play the war game and is going to continue to propagate and hold hostage their people in deep separation and in the realms of conflict in fear and suffering. I'll say it to any leader of any nation state, you're gone. It's over. This game is over. It's finished. And I do this in the background. I have the authority to say it here because I'm literally saying it to them in the background. Okay, this is standing in my true conviction. It's not an ego trip. Nothing of the sort. Yes. We are now dismantling these nation states interdimensionally from the ethers. We are working inwards to get it. That's why we're now taking out the dark sorcery. That's why we're taking out all the exotic technology, all the wormholes, all the portals. We're shutting down all interdimensional access. We're shutting down all of their energy sources. Yes, it is over the peace treaty that just got signed on the 10th of July, our time. That was it. That was the final piece.

That gives us the natural right and the authority to now start dismantling all of their infrastructure that remains on this planet. We were able to do it up to a point because we achieved peace up to a point on a galactic level. But now that the peace treaty's been ratified and the whole galaxy is now returning to harmony except for just those select few synthetic realities and timelines.

We now have the natural authority and the right to move in on these infrastructures and these organizations. It is ending for all nations who are going to continue the game of war. You are going to be dissolved. All the power infrastructure is being dissolved. That's why the political narratives right now do not make sense.

And when it finally spills into the public arena, that's the final last place that you're going to see it. To see what's truly happening, to really know the extent of the dismantling of the dark control systems on our planet, you've got to look beyond the surface. And to do that, you've got to look beyond the surface of yourself.

To access these other dimensions where this is all happening and playing out, you've got to go into your own multidimensional nature. And you will see it. You will see it for yourself. And you're going to hear about these operations eventually. It's going to come out.

DR. SALLA: Okay, so that helps us understand why CERN was shut down. 100%. This is part of this effort or this operation to close down all of the portal system that were used by this dark sanctioned Archibald to bring in entities from other realms and other worlds who previously were kind of maintaining this dark control system on planet Earth.

And so this operation into Iran is to shut down or get control over and then shut down some of these portals, some of these ways in which these dark forces were able to enter into our planet. So that's accurate. That's a very accurate assessment summary. Yes. Okay. Yes. How does Green Mountain fit into all of this?

GEORGE: Green Mountain is an energetic PowerPoint that is facilitating the new conscious relationship with technology. Like the energy of the land there is really good for that. And so all the people that are going there, and like if you'll need to speak to the indigenous folk there to share with you the law of the land. Yes.

But it's all about harmonizing human spirit, human consciousness with the tools with technology. They created their best tools there. You know what I mean? They got inspiration for building and for knowledge. They'll come connecting with spirit there to guide them into their ways of building their stone or blanket on it. A sweat lodges, right? How to build a good sweat lodge? How to build harmony? They used to build stone domes and they would sit in resonant fields and hum and place certain instruments, especially the flute, and they would heal their tribe members in the stone domes through resonance, through fields of resonance because of the chamber that they were creating. So they had a different approach. Green Mountain is a very, very beautiful area for harmonizing consciousness with technology.

DR. SALLA: Well, that's, that's very similar to the kind of information I've gotten about how Green Mountain is part of a White Hat disclosure initiative and where they're revealing what this, this kind of like consciousness and control or using consciousness to control technology and being able to do a lot of things that we would find fantastic.

GEORGE: Yes, absolutely. And that's why the emeralds were sharing with me that one of the passage links, transport links from their meeting place is the link to Green Mountain. It is one of the shining lights in the new technology that will emerge into our societies in the near future.

DR. SALLA: . Fantastic. Okay. Now that takes me into the kind of disclosure process that's happening in the United States. It seems that really everyone around the world is watching the United States in terms of revealing the existence of extraterrestrial life. The President Trump has made a number of statements. He's posted memes indicating that he's very interested in this issue. And there are a number of congressional initiatives and he's ordered the Pentagon to release all UFO related files and people are expecting him to make a major announcement soon about the reality of extraterrestrial life. So what do you know about that?

GEORGE: Yes. First thing I will say is please be aware of all the gaslighting that's taking place, all the stringing along and all the hope

pond that is being given to us by these organizations. They're stringing disclosure along. There is, let me explain this. This is really deep. There are two time frames that these organizations have been given.

One of the time frames is November, that if they don't do anything by November, then a lot of action is going to take place. And there's another one that's sooner than that that I cannot mention that I'm involved in. That action will be taken if they don't achieve a certain level of awareness in disclosure in the public collective, in the human cause. We monitor the collective all the time and what takes place in it. And the admirals also in my conversation with them last night and this dawning was that by November, we're going to lean in heavily. So November is going to be your hot month when it comes to disclosure. It's going to be the hottest month and the forces that want to continue to be are going to implement programs of distraction and misdirection. So please be aware of that. And again, the most powerful thing you can do to really get a feel for the real disclosure is to come back into your heart, soul essence, because we are the ones we've been waiting for.

So my conversation, my dialogue here with Michael, this is disclosure in action. And I speak with natural authority. This isn't an ego trip. I really actually have an incredible amount of authority which I've struggled to come to terms with and making sure that it isn't an ego trip. This is what was my greatest challenge of the feeling that I have within myself is being crushed by the weight of the responsibilities that I have in my life path.

This is a subconscious feel you all have. We all have it and we've got to work through it. If you want real disclosure to begin to happen, it's got to come from you as well. You can't just sit back and be in your cozy little comfort zone and wait for everyone else to do it. That's the cowards way. You've got to have the courage to stand true to speak your voice.

And it starts with your family. I did this two decades ago when I was sharing about my life and my life path of my family and friends. And that's the ultimate litmus test is your friends and family. So when you

work through that, it's like a rite of passage. It's like an initiation that you go through.
When you work through that, you no longer have the fear and insecurity that you did have pride of that to remain hidden. And I don't want to. It's like, why are you so fearful about your own existence? Why do you have such little trust and faith and belief in your own soul, in your own journey here? It's like when you get past that fear, then they can't come near you in that way.
The only time they get access to me is if I'm embodying fear and insecurity. That gives them the access. That's the access point. So, and it's not about being cocky and belligerent. And it's about standing true. Your energy becomes really quite powerful in that sense. It's an emanation. It's a natural conviction of your soul because we're in a soup of lies and deception and falseness and false identities.
So, energy becomes really quite strong in that natural conviction and the quality of your light that you emanate. And the more you embody your soul's light, the more you keep them away. They can't come near you because your light just destroys them. They can't come near you. It's like if you have a small fire, you can get your hands to those coals really close, like this far away and you warm your hands because it's only small. But if you have a large bonfire, you've got to be like 20 yards away from that thing.
You can't get anywhere near it because the radiant heat just melts you, right? That is the same effect. If the more you are embodying the light of your soul, then they cannot come near you. And the only ones that are allowed to come in to impact me now moving forward are the ones that are in alignment with my soul's growth. You still need a challenge. You still need to be challenged in certain ways in order to be able to grow.
Yes, because the nature of the reality here. So, there's nothing superficial. There's nothing, no unnecessary suffering that is taking place in my life, path in my timeline anymore. And my life and my timeline has become so incredibly harmonious. And there's so much love. There's so much joy, love on own respect from all my

community, my friends, my family, except certain members of the family who still want to stay entrenched in their ideologies.
But it's okay. I love them regardless. It's like just it's you just go on your merry way and really, really back yourself. We've got to back ourselves. So, we need more people standing true and speaking out about their experiences, their knowledge, your experiences. We need you to stand up and speak about your knowledge and your experience and stop hiding behind your keyboard, stop being a keyboard warrior.
Look at what Michael's doing with his life. Look at what I'm doing with my life. Look at what all the magnificent speakers that come on Michael's show, they're putting themselves out there. We were all putting our lives on the line and we back ourselves.
Right? We don't live in fear like you live in fear. That's why we do what we do. We live in love and trust. Trust is the magic word he trusts. I trust my soul. I back myself. I know what I'm doing. I'm aware. I'm consciously aware of my life path. I know what I've come to this world to do. I'm aware of my responsibilities and obligations to this planetary intelligence and to the soul of humanity. I'm fully aware of my obligations here.
Right? There's a lot about my life and my experiences I do not share because private at this stage. But in the future, you will see there will come a time when I will be a lot more prominent in the greater scheme of things because of what I have to share with the world and my responsibilities here. I already get taken and provide counsel to really prominent people that you know of in the world.
And I sit and I provide counsel to these people, movers and shakers on the planet, really prominent people. This is my life in the background. Yes, I'm not going to name drop really prominent people. And this is what's already happening for me in my life path. And it's because of the quality of my conviction and they're aware of who we are. They're just waiting for us to reach a particular frequency, so they can be comfortable and we can be comfortable in each other's presence.
So when we hit a level of maturity, then a whole new path opens up. And like I've shared with you, Michael, we've got a lot of work to do

moving forward. But the timeline that's opening up for us all is so beautiful. And I mean so magically beautiful. I don't buy into all these fear games. The best thing you can do is unplug and stop investing your energy into all the BS, all the political BS and all these games of war.
And you know, all of these systems of control are just very fast becoming redundant. And they are the ones that have the loudest voice at the moment and it's just temporary. And in the background, interdimensionally, we are dismantling their infrastructure piece by piece by piece. And soon it's going to spill into the public domain. But I keep saying to you, this is the last place you're going to see it. But in the background, it's on. Oh, it's on all right. And we're working diligently. And I'm like look at what J.P. brings forward. Look at all the work he's doing behind the scenes. And he doesn't share half of it. You know what I'm saying? There's a lot of work by a lot of great people going on behind the scenes.
And we're just getting on with it. People are just doing scrolling every day. And you just caught in a prison here. You're just in a prison. You've got to break free of this mental prison that you're in that they've got you in with their dark magic and their technology combination of the two. So that's this is a really important message for everybody to get because we are the ones we've been waiting for.
Real disclosure is not going to come from those guys who've sold their soul through ritual in secret societies to be in their secret men's clubs and secret women's clubs to have those positions they have. They're in those positions because they've sold their soul.
Right. You don't you don't magically get there. No, you are pulled from below into it. Right. Into every level, the next level above pulls you up. And when you get to that level, the next level pulls you up. Right. This is this is a from your local council all the way to the top. The whole thing is one toxic corrupted giant imperial infrastructure. The whole thing in every nation. Right. On the whole planet. So the whole thing is going. You've got to stop reinvesting your time, energy and resources back into their game. You keep getting pulled back

into their game. What we're here to do is now create a new reality moving forward.
And it's never going to happen in your life if you keep hiding cowardly in your little comfort zone, hiding behind your keyboard, fire out on your keyboard warriors are there out there who have got no idea about courage and vulnerability whatsoever.
And I can tell you vulnerability is where the power is. The more vulnerable you're willing to be the more powerful you are. That's how it works. And I see the people with real courage, genuine courage, not ideological courage or bravado, false bravado courage, real courage. And that's where it's at. The quality of your conviction.
DR. SALLA: Well, George, you've shared incredible information. I mean, I really enjoy interviewing you because you're not just a wealth of information about what's happening around our world and in the greater reality around us. But you're also a great reminder of the wisdom teachings that really the answers we seek are within us. And you always remind us to go within. And so I really enjoy your unique blend of knowledge and wisdom that you have to share with us.
GEORGE: And a passion for what is real. I now get passionate. You know, it's the Leo in me from a very good line that gave me this heritage and I am aligned being in Cirrus and I'm a Leo. I just was my 60th orbit around this magnificent planet around the Sun on this magnificent planet. So, no, we have great courage within us.
DR. SALLA: That's for sure. Well, you definitely have gone through some kind of rebirth in the nine months since you last were out there publicly. And I look at you and I see, well, you do look like you've, you've and you look like a new person, like the proverbial Phoenix. Absolutely. Absolutely. Like you've got your roaring lion on your new site intro.
GEORGE: And the Phoenix emerging out of that mouth. Exactly.
DR. SALLA: Yes. Working the line in the Phoenix. So, George, just for people that want to learn more about you and where to go, why don't you talk about your website and what people could find there.
GEORGE: Oh, the website is ourjourneyhome.earth. I just launched it and I'm coming back to do my courses. The monthly webinars will

be set to follow. And so, lob on over, as we say here in Australia. And join in. Cup of coffee a week is the price it's always been for membership. And there's our library of hundreds of hours of videos. And if you enjoyed the type of content and the way things are shared, because I lean in.

Every time I speak, every interview, every webinar, it's a workshop. I work you. I'm working, what I mean is I'm not here to entertain you. I'm here to lean in, challenge your belief systems and open you up to what is real. So, if you enjoy that process, if you're ready to face yourself, come on over.

And there's incredible webinars, hundreds of hours of so much content for everybody there, supporting people all over the world at the moment. And just before I head off, there's one more thing I want to finish with. There is something inside you, I call it the light of your soul. But when we use the word magic, this is truly magical.

What you have deep inside of you is wanting to come out. And it is your authentic soul expression. It is so beautiful. It is beyond my ability to find words, to explain it. It can only be experienced. It can only be felt. And those of us who are feeling it, you'd be amazed how everyone's life is transforming to the better. People are getting on with a creative process.

They're stepping back from their matrix lives. And now they're courageously getting on with their own creative process and the abundance is beginning to flow. It just needs trust. Back yourself and be the magical being that is within you waiting to come out and live the life and the original intention for why you came to this planet to begin with.

DR. SALLA: Well, fantastic, George. I mean, it's always a pleasure talking to you. And I'm so glad that you're back in the public arena. And we definitely do need you to share more not only your kind of like, well, missions, your encounters with these very important people around the planet and knowledge of the inner workings of the deep state, but also, of course, the reminder to always go within to find that still point, that infinite still point, that soul connection that we really need to be able to make our journey home. And of course,

make the preparation for meeting with the extraterrestrials and the Inner Earth.

GEORGE: Yes. Yes. Yep. Yep. It's coming. It will come.

DR. SALLA: Fantastic. Well, thank you and Aloha.
